Letter of medical necessity

Under Internal Revenue Service (IRS) rules, some health care services and products are only eligible for reimbursement from your health care FSA, limited purpose FSA, and HRA when your doctor or other licensed health care provider certifies that they are medically necessary. Your provider must indicate your (or your qualified dependent's) specific diagnosed medical condition, the specific treatment needed, the length of treatment, and how this treatment will alleviate your medical condition.

ClearStep has developed this letter to assist you and your health care provider in providing the information needed in order to process your claim. Your provider can also submit a statement on his or her letterhead, as long as the letter includes **all** the required information on this form.

You only need to submit this form or your provider's letter containing the same information with the first claim you submit for the service or product. However, if the treatment extends beyond the time period listed, you must submit a form or physician letter covering the new time period. You must submit a new letter of medical necessity each year—services cannot be approved indefinitely. Submitting this form does not guarantee that you will be reimbursed for the expense.
